

Some Processors for Small Scale Meat Bird Chickens, etc.

Compiled by Doug Akers & Curt Campbell, Purdue Extension Educators
Updated 2-21-12

Central Illinois Poultry Processing Plant

119 N. County Road 000 East
Arthur, IL 61911
217-543-2937

USDA Inspected

Plant capacity is 1800 birds per day. Processes chicken and turkeys. Can do organic processing. Call for prices.

Please inform your interested party that the phone isn't always answered, but messages are promptly returned. Live birds are dropped off early in the morning, and chilled, shrink-wrapped, and weighed birds are ready for pick up in the middle of the afternoon. Live birds can be caged or loose in a trailer.
